

An AAHA Accredited Veterinary Hospital

Five Star Canine Annual Wellness: \$99.95

The Annual and Semi Annual Visit to our office is not just about vaccine updates, it's about preventative care. We strive to provide the highest level of care possible for your little star, to promote overall wellness. Listed below are requirements and recommendations for the annual visit. Allow us to give you and your pet the "star" treatment!

ANNUAL & SEMI ANNUAL VISIT:

Full Body Annual Exam

Our doctors will perform a full comprehensive exam, from the tip of the nose to the tip of the tail.

Intestinal Parasite Screening

Our stool samples are shipped overnight to our outside laboratory, IDEXX Laboratories. They have the capability to detect 70% more than we can with an in-house test.

Rabies Vaccine (3 year vaccine)

Vaccination for Rabies is legally required by the State of Louisiana once every 3 years. Although Rabies is not as common as it was years ago, we want our stars to remain protected!

DAPP Vaccine (3 year vaccine)

This vaccine protects against four different diseases, including Distemper, Adenovirus/Hepatitis, Parvo Virus and Parainfluenza.

Leptospirosis Vaccine (1 year)

This vaccine protects against mortality caused by Leptospira serovars and prevents leptospirosis (urinary shedding). This vaccine is required once per year.

Bordetella Vaccine (1 year)

This vaccine helps to protect against the common causes of "kennel cough".

Heartworm Antigen Test

A Heartworm Test is required once a year in order to purchase Heartworm Prevention prescription. According to the American Heartworm Society, 63 million dogs are exposed to heartworm disease in a year. The test is a simple blood test and takes about 10 minutes to get results.

Total for Standard Annual: \$99.95

Heartworm/Flea-Tick Prevention

#1 Recommend by our Vets!

() ProHeart 6 Weight _____ \$ _____

Protects your dog from heartworms for 6 continuous months with just 1 shot! *Price varies due to weight

() ProHeart 12 Weight _____ \$ _____

Protects your dog from heartworms for 12 continuous months with just 1 shot! *Price varies with weight

() Bravecto- \$54.48

One tasty Chew protects your dog against Fleas and Ticks for a full 12 weeks!

() Trifexis

One Chewable tablet protects your dog against Heartworms, Fleas, and several Intestinal parasites for 30 days.

6 Month supply based on your pet's weight:

() 5-10 pounds \$103.99 () 10-20 pounds \$108.99

() 20-40 pounds \$111.99 () 40-60 pounds \$113.99

() 60-120 pounds \$115.99

OPTIONAL SERVICES:

Bivalent Influenza Vaccine

*\$35.95 ()

The Bivalent Canine Influenza Vaccine protects against two strains of canine flu – H3N2 and H3N8. **This vaccine is required for boarding and bathing but otherwise optional and *highly recommended*.

Wellness Profile

\$134.99 – 249.99 ()

We can perform a comprehensive bloodwork panel on your dog. These profiles include the Heartworm Test and Intestinal Parasite Screening, plus blood work (chemistries and CBC) and other tests depending on your pet's age.

Pawdicure (nail trim)

\$12.00 ()

Our trained staff will clip your dog's nails and can show you the proper way to trim nails at home if you wish to learn.

Anal Gland Expression

\$15.00 ()

Anal glands are small sacs just inside the anus. They fill with a putrid smelling liquid that if not expressed, can cause an abscess. Some dogs need their glands expressed more often than others. Our staff can express your dog's anal glands if needed.

Ear Clean

\$15.00 ()

Some dogs, especially floppy-eared dogs, will retain dirt and debris in their ears. Some dogs have hair that grows in their ear canals. Our staff can remove excessive ear hair, and clean the ears with a safe, non-abrasive ear cleaner.

HydroSurge Bath

\$20.00 – 35.00 ()

Let us bathe your dog with our HydroSurge bathing system. This top-notch system dispenses a moisturizing shampoo along with water and oxygen to ensure the cleanest clean, all the way to the skin. *price varies by weight

Home Again Microchip

\$50.00 ()

A Home Again Microchip is the best way to provide permanent identification for your pet. The chip is inserted via syringe, and each chip has its own unique number to identify your pet. If your pet ever wanders off and is taken to either a shelter or veterinary clinic, your pet's number will show up on the microchip scanner and we can much more easily get your pet back home again. This price also includes the first year of enrollment through Home Again.
